Additional Questions - Boolean Algebra Simplification

Simplify the following using laws of Boolean Algebra

1. $C+\overline{BC}$ Answer – 1

2. $\overline{AB}\left(\overline{A}+B\right)\left(\overline{B}+B\right)$ Answer – A'

3. $ABCD+A\overline{B}CD$ Answer – ACD

4. X = A B C + A' B + A BC ' Answer - B

5. Q = AB + B(B+ C') + B'C Answer - B+C

6. Y = AB +A(B+C)+B(B+C) Answer = B+AC

7. Q = AA + AC + AB + BC Answer = A+BC

8. Z = A [B + C(AB + AC)] Answer = AB+AC

Tutorial 4 – Question 5

b) $\overline{AB}\left(\overline{A}+B\right)\left(\overline{B}+B\right)$ Answer – A'
