

Project NIC

Fun Activity for Future Coders !!!

Identify the Sri Lankan NIC Details

- Sri Lankan NIC contains some details of the holder.
- More information can be obtained from the link
  - https://en.wikipedia.org/wiki/National_identity_card_(Sri_Lanka)
- Let's try a simple program to extract the details of NIC and display them
- This small projects is for all of you!
  - SE / CS / BIS and BM Students!

How This is Going to Work (Full Project)

1. Your program will ask the user to input his/her NIC number
2. Your program will process the NIC details and display relevant output
3. This can be discussed with your partners if you like

Sample Output

```
Type your NIC number : 923650370V
You were born on  92
You are a male
You are a voter
>>>
```

```
Type your NIC number : 986550145X
You were born on  98
You are a female
You are a none-voter
>>>
```

```
Type your NIC number : 996650780V
You were born on  99
You are a female
You are a voter
>>>
```

```
Type your NIC number : 99665780V
Invalid NIC
>>>
```

Embedded Details

- Final character in NIC
  - V - voting
  - X - none-voting
- First 2 digits will tell birth year
  - 99 – 1999
  - 96 – 1996
  - 48- 1948
- 3rd, 4th and 5th numbers can be used to define the gender
  - 001 - 366 - male
  - 501 - 866 - female

NIC Program Version 2

- Update the above program to process new NIC numbers also.
  - You program should automatically detect weather the inserted NIC is an old number or a new number
  - You have to display information based on the input

Embedded Details for New NIC

- First 4 digits will tell birth year
  - 1999
  - 1996
  - 1948
- 5th, 6th and 7th numbers can be used to define the gender
  - 001 - 366 - male
  - 501 - 866 - female

New NIC Output

```
