Conducting IIT Exams via Safe Exam Browser (SEB)

This document consists of instructions to conduct IIT exams via SEB. These instructions are meant for students. It is a **MUST** to read the full document.

1. Download the ***SEB exam start*** file from the LMS to your ***Desktop***.
    a. Your lecturer/instructor will let you know from where you can download the SEB file. Usually this file is available in the module page under the relevant examination section.
    b. Look at the below picture as an example.

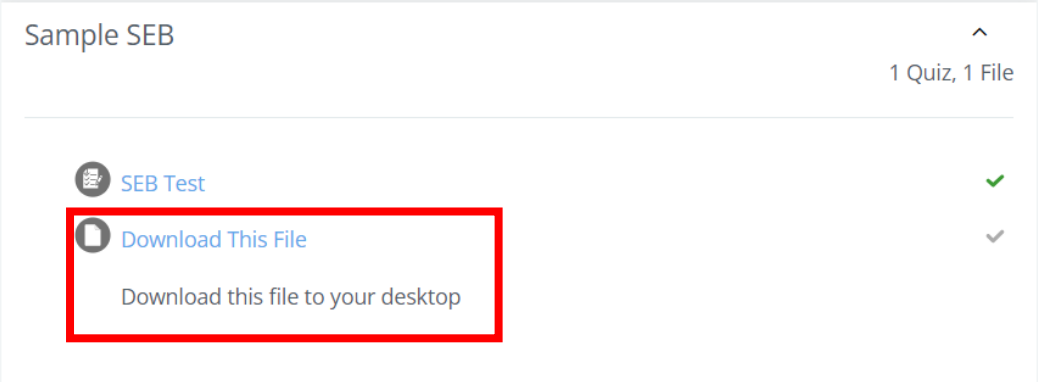

Figure 1 : This file will be uploaded to the LMS by your Module Leader

2. Double click on the ***SEB exam start*** file to load the SEB program.

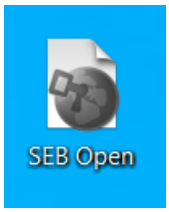

Figure 2 : Downloaded SEB Exam Stat file will look like this (the file name may differ)

3. Once the browser loads, you need to type the ***exam start code***.
    a. This code will be typed by your instructor, or the code will be given to you before the exam.

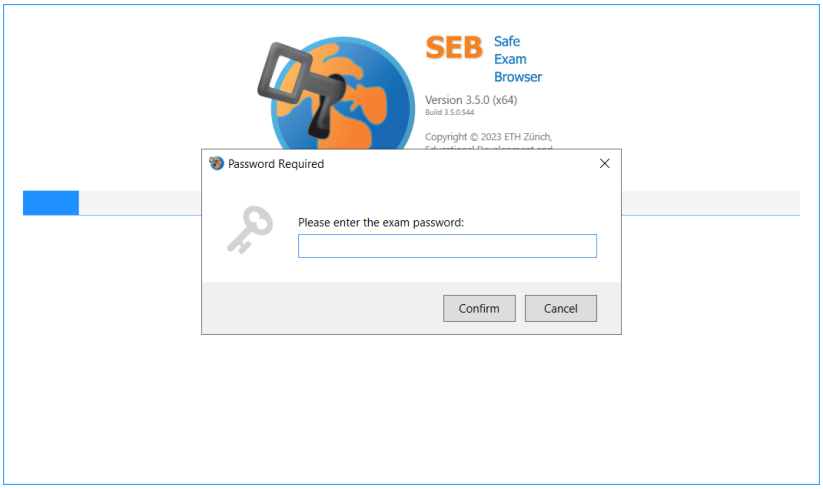

Figure 3 : Exam Start Code is Required

4. Once the browser loads the LMS, you can proceed to the LMS login.

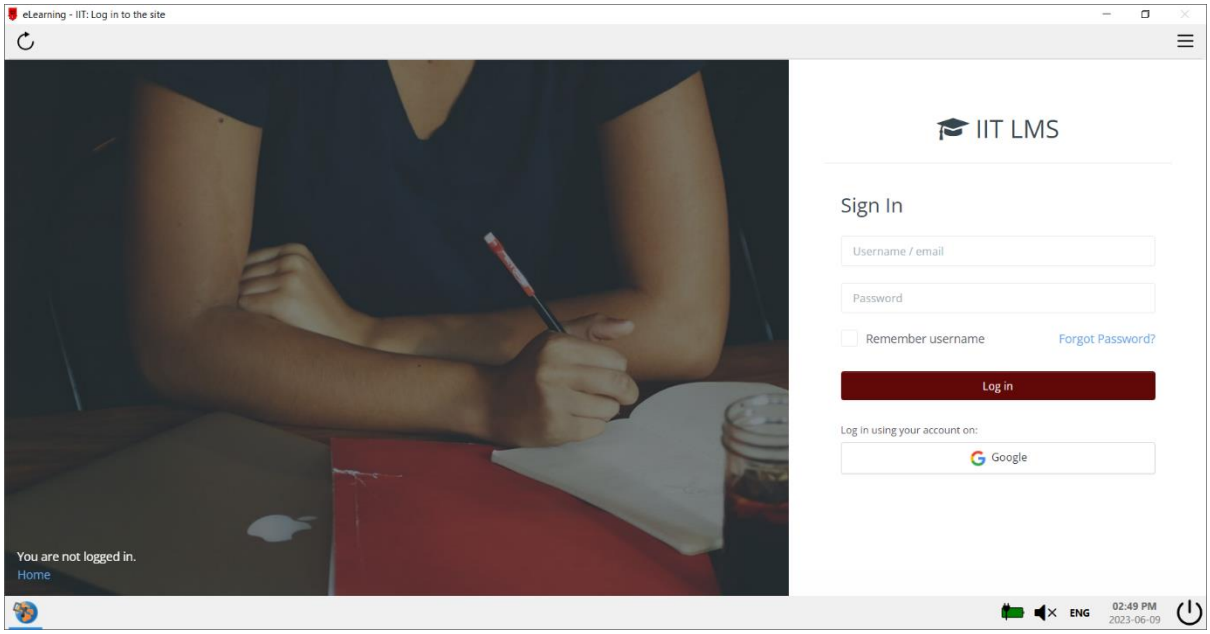

Figure 4 : Browser will Load the LMS

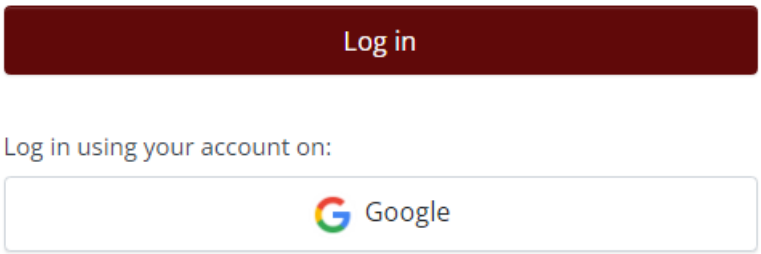

Figure 5 : Click the "Google" Button to Login to LMS

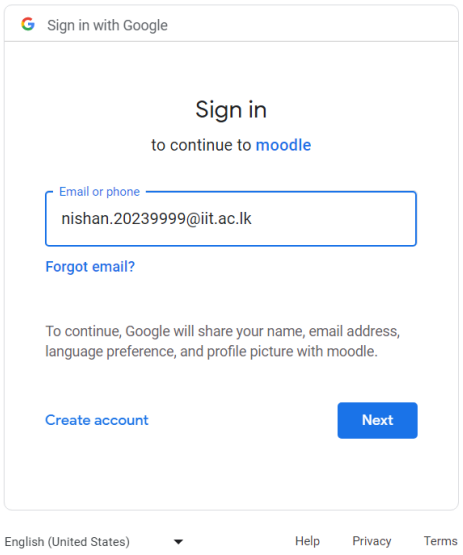

Figure 6 : This is an example screen for the login process.

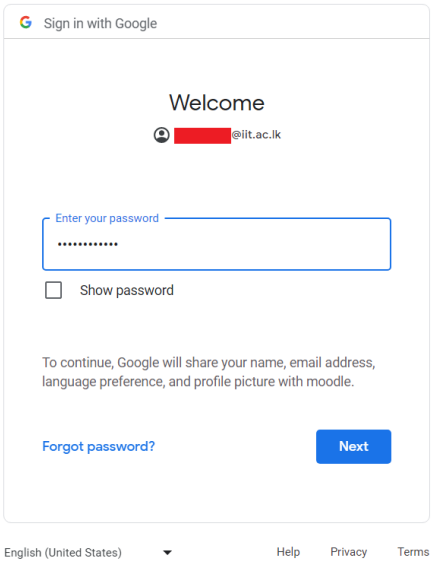

Figure 8 : This is an example password type screen.

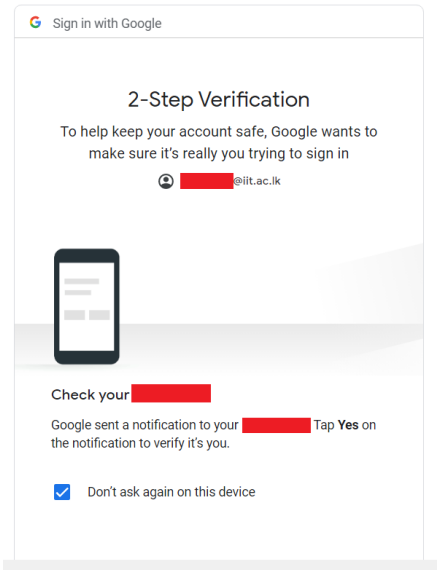

Figure 7 : Waiting for the 2 Step Verification

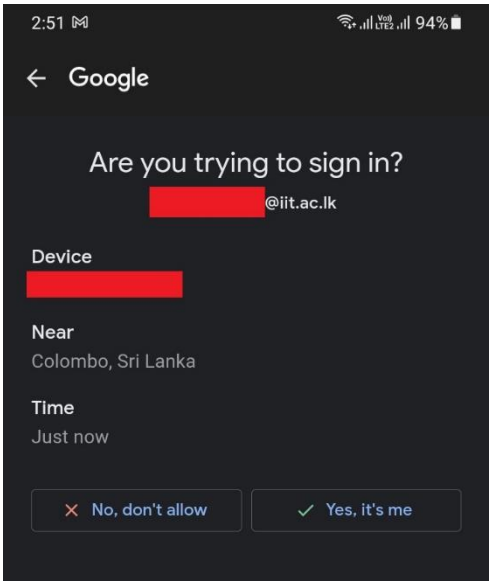

Figure 9 : Select "Yes, it's me" for 2-steps verification Message from your mobile phone

5. Once the login is successful, you will be able to see the LMS page as below.
    a. You can now navigate to the module page as usual to answer question papers.

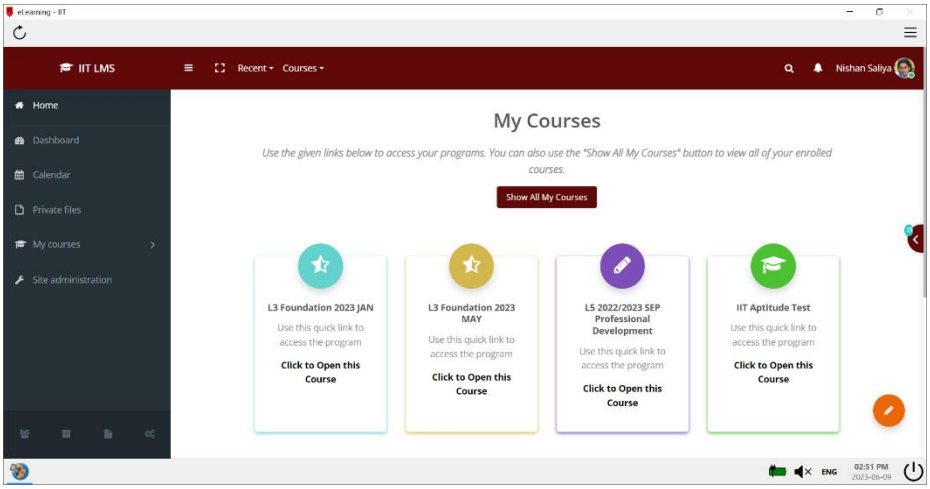

Figure 10 : Loaded LMS Page

6. Exit the SEB
    a. Once the examination is over logout from the LMS
    b. You need to type the ***Quit Password*** to exit the SEB
        i. This will be given to you after the exam or key in by your instructor.

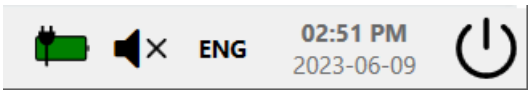

Figure 11 : Click the "Terminate Session" icon in bottom-right corner of the SEB

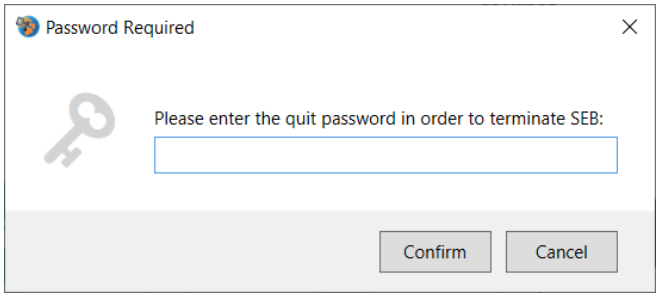

Figure 12 : Type the Quit Password Here

Important information about using SEB

1. You need to use your IIT Google credentials to login to the LMS.
2. Your saved credentials are not available under the SEB.
3. You need to remember them or keep it written on a small piece of paper securely.
4. **Failing to login to the IIT examinations due to a forgotten or wrong password will end up you getting a deferral**!
    a. **Remember this very carefully**!
5. You ***must*** use IIT Wi-Fi network for the examinations.
    a. It is illegal to use personal routers, hotspots during the examination.
    b. You are advised to contact the IT department via the SRU to get IIT Wi-Fi details.

6. You ***must*** close or shut down the unauthorized programs or processes during the exam time. They include but are not limited to,
    a. Chat software
    b. Collaborate software
    c. Screenshot software
    d. Screen recording software
    e. Virtual environment software
    f. Remote access software
7. If the above-mentioned programs are running, they may prevent running the SEB and you will not be able to do the exam. The result would be a ***deferral*** for your examinations as mentioned earlier.
